BLAINE, ARTHUR AND FRELINGHUYSEN.

Anti-Polygamy Bill—Mexican National Railroad—Guiteau's Carcass—Floods in the South—Other News.

Associated Press Dispatches.]

WASHINGTON, Feb. 2.—Blaine sent a letter to the Associated Press last evening, recounting that on January 30th he addressed a letter to the President, asking him, in view of the allusions made by Frelinghuysen to the proposed Congress of American Nations, if it is the fact that the scope and design of the Congress had been greatly misunderstood, to direct the publication of the original invitation, or grant him (Blaine) permission to publish it; that in the afternoon the President sent a verbal message to the effect that he saw no objection to the publication, but had referred the matter to the Secretary of State; that yesterday the Chief Clerk of the Secretary of State sent a note that Frelinghuysen would

PUBLISH THE DISPATCH

When called for by Congress; that this morning he (Blaine), by note, asked Windom, Chairman of the Committee on Foreign Relations, to call for the correspondence; that on the arrival of the New York papers he saw published therein the document in question, but with many errors. The dispatch was obtained surreptitiously by some means to him unknown. He then furnishes a corrected copy of the original document. It begins with a reference to the well-known peaceful attitude of the United States, which has caused other American Republics to often ask its advice and arbitration. The existence of this tendency convinced the President that

THE TIME IS RIPE

For a proposal that will enlist the good will and active co-operative of all the States of the Western Hemisphere in the interest of humanity and the common weal, and an invitation will be extended to participate in a general Congress to be held at Washington Nov. 22d next, to consider methods for preventing war between the nations of America. He desires the attention of Congress to be strictly directed to that one object. He wishes it understood that the President is not aiming to counsel any detrimental solution of the existing question which may now divide any of the countries of America, and for that reason the date for the assembling of Congress was put so far ahead as to render the settlement of that question probable. In the meantime it is far from the intent of this Government to appear as the protector of its neighbors or necessary arbiter of their disputes, but it wishes to maintain impartial friendship towards all.

FORCED UPON HIM.

Ex-Secretary Blaine holds that the controversy was forced upon him, and he is fully prepared to maintain his position and is daily receiving assurances of strong support.

THE JEANNETTE SEARCH.

Secretary Hunt has designated Lieutenant Giles B. Harbe and Master W. H. Schutze, of the navy, as officers to assist Lieut. Danenhower in the search for Lieut. Chipp and his crew, and they will take passage in the steamship Germanic, which leaves New York on Saturday, with the expectation of reaching Irkutsk about the middle of March. Their instructions are not quite complete, but will include orders to spare neither effort nor expense in the prosecution of the work assigned them.

SEPARATE BILLS.

Saunders, Chairman of the Senate Committee on Territories, has decided to report a separate bill for the division of Dakota and keep that measure apart from the question of admitting the southern portion of the Territory into the Union.

WILL BUY GORHAM OUT.

The sale of the National Republican has been arranged. The transfer is to be made Saturday. The purchasers are a number of Republicans who want to see President Arthur's administration provided with an organ that shall be free from the stain of star-route ownership.

CHIEF CLERK AND SECRETARY.

The Democratic caucus yesterday agreed, at the request of Republicans, to permit the adoption in the Senate of a motion making Neil Brown Chief Clerk and continuing Col. Shober as Secretary.

IT GRINDS SLOWLY.

No progress has been made in the Star-route cases to day.

APPROVED.

The President has approved the bill granting an additional pension to Mrs. Lincoln.

THE PUBLIC PRINTER RESIGNS.

John D. Defrees, in an interview with the President verbally tendered his resignation of the office of Public Printer, to take effect on the first of April.

FARLEY WILL SUPPORT THE CHINESE BILL.

Senator Farley is actively exerting himself among his Democratic colleagues to clear the way for the proposed bringing up of the Chinese bill at the earliest moment after the funding bill is disposed of. He says he is heartily in favor of the bill reported from the Foreign Relations Committee and although he may offer some amendments, he will cordially aid its passage.

WHOLESALE RETIRACY.

It is the general belief that the present Quartermaster General, Surgeon General and Paymaster General will soon be placed on the retired list.

NEW YORK NOTES.

Houston Denies that a Coalition has Been Made.

NEW YORK, Feb. 2.—The report having gained circulation that the Pacific Mail Company and the Overland Pacific roads, embracing the Union, Central, Southern and Texas Pacific and Atchison, Topeka and Santa Fe, had come to an amicable understanding, and that they had been signed, President Houston, of the Pacific Mail, was interviewed, and flatly denied that there was any truth in the report.

THE ANTI-POLYGAMY BILL.

The New York Graphic's Washington special says: The Sub-Committee of the Judiciary Committee, to which was referred Shallenberger's bill on Mormonism, is ready to report to the whole Committee, recommending the passage of the measure, with some amendments. The bill provided originally simply that no polygamist should hold any office of trust or profit under the government. The amendments make it include delegates in Congress especially, and an iron-clad oath is prescribed which he must take before he shall draw any pay, wherein he swears that he is not and never has been a bigamist or polygamist. It provides that he be subject to investigation by quo warranto before a United States court in the Territory, and that his wives, or alleged wives, shall be competent witnesses against him. Culverson (Democrat) on the Sub-Committee, unites with the Republicans in the report. It is believed that the bill will pass.

THE MEXICAN NATIONAL.

At a meeting of the parties most interested in the Mexican National Railway held to-day it was announced that of a total of 729 miles 302 had been completed. Including the Corpus Christi connection, 550 miles had been graded, ties provided and paid for for 582 miles, and rails and rolling-stock were on hand and paid for to cover the entire 729 miles. That inasmuch as the mileage was considerably more than was covered by the previous subscriptions it was decided to increase the stock of the Construction Company by $300,000, one-third of which was subscribed at the meeting. The remainder was assured, but has first to be offered prorata to existing stockholders.

INDICTED.

The Grand Jury has indicted Hanford, the conductor, and Mellius, the brakeman of the wrecked train, for manslaughter in the fourth degree.

A Walla Walla dispatch says that last night a fire broke out in the farm house of Julius Wissick, five miles from the city. Mrs. Eliza Medler, aged 42, her daughter, Emma Isadore Medler, aged 19, and her son Arthur, aged 6, were burned to death. The other inmates escaped.

GUITEAU'S BODY.

Speculations as to How it Will be Disposed of.

WASHINGTON, Feb. 2.—Guiteau's attention having been called to the report that his body was to be sold for the purpose of being exhibited, he seemed quite indignant and said that Scoville had no business to entertain such a proposition. Guiteau is beginning to show much nervousness and irritability. He is suffering from a severe cold, which has inflamed his eyes. One of the jail officials, who has observed the prisoner closely, says he would not be surprised if he did not live to be hung, as his health appears to be failing rapidly.

JOHN W. DENIES IT.

John W. Guiteau in a card to the public disavows all knowledge of the proposed exhibition of his brother's body, and says whether his brother dies by legal process or in an insane asylum the body will be disposed of in a manner that will not offend the public decency.

GOVERNMENT WILL CONTROL IT.

Corkhill refuses to submit to an interview on the subject of the disposal of Guiteau's body, but lawyers say that the Government will have authority over it.

COX WILL SETTLE IT.

It is likely that Judge Cox will include in Guiteau's death sentence the disposition of his body, as the law permits him to do.

Damage by Floods.

CHATTANOOGA, Feb. 2.—There has been great damage done by floods in the Warrior, Bigbee and Tombigbee rivers. Central Alabama trains have not been run through on the Alabama & Great Southern Railroad for ten days. It is estimated that the road has already been damaged $130,000. Four or five negroes have been drowned; also a large amount of stock.

Shot by a Bullwhacker.

OMAHA, Neb., Feb. 1.—Mrs. John Hughes was shot at her ranch to-day by a drunken bullwhacker named John Lewis. He escaped on horseback, pursued by cowboys.

Broken at Last.

ALBANY, Feb. 2.—Tammany voted with the other Democrats in the Assembly and elected C. E. Patterson Speaker.

Coming to the Rescue.

DETROIT, Feb. 2.—Gov. Jerome has called an extra session of the Legislature, to consider the relief of the fire sufferers.

BROKE THROUGH THE ICE.

Nelson Decker, the actor, while crossing Crooked Lake and pushing before him a cutter containing his wife and little boy, broke through. Some boys skating rescued Decker, but the others were drowned.

Beaten to Death.

SHREVEPORT, La., Feb. 2.—Alph Davenport, a respectable colored farmer in Union Parish, was yesterday taken from his home by a mob of colored men and beaten to death with clubs and stones. There had been trouble between Davenport and Oliver Archie, who wanted to marry the former's aunt, and it is supposed that the mob was led by Archie.

PASADENA.

An Interesting Budget from our Correspondent. "W. E. B."

The meeting of the fruit growers was held last Saturday evening, and panned out, so far as attendance was concerned, about the same as the last. Those present exchanged views on the subject and upon the suggestion of Mrs. Carr and motion of J. B. Clapp, a committee of four, consisting of Messrs. Dougherty, Risley, Green and Watts were appointed to wait upon Mr. Sewall and make arrangements for shipments of fruit upon the terms offered by him, and to report at a meeting to be held on Saturday evening, February 11th. We are now, I am glad to note, in a fair way of having the efforts of our townsman, Captain Risley, meet with the success they so justly deserve. The Captain shows by his labors that he has Pasadena and Pasadena only at heart, and if we are not successful in elevating Pasadena to the standard which her productions merit, it will be no fault of the committee of which the Captain was chairman, as he, having, as I understand, been allotted the whole work, has spared neither time nor money in endeavoring to bring about the above result. Score one for Captain Risley.

Several transfers of real estate have taken place in the last week. Among them we note that of Mr. Hallock to Dr. Ellis, of whom I spoke in my last letter.

Mr. Palmateer has sold his place on Marengo Avenue to Mr. Hyesie, of Pueblo, Colorado, for $4,500.

Mr. Noble sold 7¼ acres on Villa Avenue to Mr. Northern, of San Francisco, at $40 per acre.

Miss Foote's new cottage will soon be finished, when the contemplated repairs on Mrs. Bangs' place will be commenced.

Mr. Hurlburt has kindly tendered the Methodist and Presbyterian societies the use of his fine residence for a union social, to be held this, Friday, evening.

The rain paid us a short but very welcome visit on Tuesday evening last. Much snow and rain has fallen in the mountains, which signifies full reservoirs and an abundance of water the coming season.

The early sown grain is "bracing up" under the influence of the last two "horns."

Straws show which way the wind blows. The business at our Postoffice has increased from one to two hundred per cent. in the past four months.

Mr. Brigden is enlarging his present residence. ?

Colorado Avenue, near Lake Avenue, has been graded and put in first-class order. We would like to see the movement become a general one; also that of planting shade trees on each side of every road or street in Pasadena.

The new schedule of rates adopted by the new Advisory Board goes into effect this month, and as far as heard from it meets with approval. The meetings of the Board have been changed from the second Monday to the second Saturday of each month.

LOS ANGELES DAILY TIMES.

THE LOS ANGELES DAILY TIMES will be sold on all the trains of the Southern and Central Pacific Railroads; also on the Atchison, Topeka & Santa Fe and Texas & Pacific road.

The TIMES can also be found at the news-stands of the Palace and Occidental Hotels and Russ House, San Francisco.

Arrangements are now being perfected to have the TIMES placed in the reading rooms of the leading hotels in this and the Eastern States.

THE TIMES office is connected with the telephone system of this city, and those desiring to advertise in or subscribe for this paper can do so by this means.

AN ISTHMUS CANAL.

Whatever may be our railroad connections, the need of a water communication with the East—and the shorter the better—is great. The market for our surplus of grain and wool and wine is far distant, and nothing that can be done can possibly alter the relative geographical positions of producer and consumer. Our only practicable way to overcome the disadvantages of the situation is to obtain cheap, quick communications. Speedy communications we now have with a portion of our markets, and in point of rapidity of passage we have probably reached the practicable maximum, for it is proven by a half century of railroad experience that a speed greater than our present average, is both dangerous and ruinously expensive. The wear and tear of very rapid motion is too destructive to machinery, and the cost of fuel to maintain the intensity of power—so to speak—necessary to great speed, is so expensive that it is not found advisable, excepting under the most favoring circumstances, to run at near the greatest possible rapidity. But in getting speed we have not got cheapness. The ship via Cape Horn, with its time schedule of a hundred days can do our work cheaper than the steam horse with its trip of twenty days, or such a matter. Or if it is possible to do the work by rail as cheap as by water the railroad managers stubbornly refuse to do it at the same rate, and to-day we send large shipments by the "cape of storms," although we have had one railroad for over twelve years, and a second one for better than half a year. So that as a transcontinental freighter the rail has been a failure for our heavy, cheap wares, and grains. True, we hear that an attempt is to be made to run our wheat to New Orleans by rail, but to do it profitably to the stockholders, it has got to be done at a price above what the commodity is worth in any market, or at a figure so low as to give the flat contradiction to the possibilities of railroad work as has time and again been announced by railroad management. To carry by rail as cheap as it is carried by sea is to charge on the entire route of some two thousand miles a much less figure than is now charged for average freight on less than half the distance. But whether it cannot or can be done profitably matters little to the railroad managers, for if disposed they will do it, so long as it is necessary to secure the business at higher or remunerative figures in the future.

But it is not our own trade only that is to be affected and aided by an Isthmus canal, for our northern States and Territories and the British possessions, the islands of the Pacific, China and Japan, Russia and the whole of Pacific South America, are interested, as well as all with whom they trade. They are mainly beyond the aid of our rails and are and will be for all time almost entirely dependent upon the highway of the ocean for commercial and social intercourse. To them a shortening of the eastern sea route by a canal across the Isthmus is everything, and those who project and successfully prosecute the work will earn the gratitude of the present and all future generations of dwellers upon either shore of the Pacific ocean.

The saving in time by the canal to a sailing vessel would be probably not less than fifty days on the average, and often eighty, and the terrors of the voyage from the East would entirely disappear. The saving to steamers would be proportionately large if by the Horn. Steam freighting by the Isthmus will save the delay and expense of transshipment and the present freight by rail from ocean to ocean. All these savings of time and expense are savings that immediately affect the producer and the consumer on this coast. Every dollar per ton taken from the freight charges on our wines, and wool, and wheat, or other products from our country to the East are so many dollars in the pockets of our producers, and every dollar taken from the freight of the immense shipments of necessaries we cannot manufacture or grow is so much added to our savings and accumulations. The benefits to be derived are so apparent and so large, even with our present volume of business, that every nerve should be strained by our people to obtain this means of transportation for our heavy articles of commerce—articles that cannot profitably be transported by the rail.

THE Spirit of the Times says at the present time there are many Congressional aspirants—at-large, and thinks that after the election, a great many of them will be allowed to remain at large.

W. W. MORROW, Chairman of the Republican State Central Committee will be a candidate for Congressman-at-large, and not for Governor, as was announced in the TIMES recently.

HON. CHANCELLOR HARTSON, Internal Revenue Collector at San Francisco, announces that he is not a candidate for Governor at the ensuing State election.

ALL the legal lights agree that the New Canstitution fixes the next State election in November.

BY THE WAYSIDE.

What Our Correspondent Saw as He Journeyed Through Artesia.

I. F. Branch showed me twenty-four fine hogs, one weighing 425 pounds.

Mr. Eli N. Cannon, of Cleveland, Ohio, is visiting with his brother-in-law Mr. J. A. Smith. He remarked that the stories frequently reported in Mr. Smith's correspondence with reference to the yield of alfalfa were hardly credited, but since his arrival here they have been more than verified.

Miss Eliza Law, a sister of Mrs. W. H. Smith, recently arrived from Livingston county, Ill., will probably remain permanently.

J. J. Meador, owing to continued ill health has been compelled to abandon the well boring business.

G. W. Haines raised four hundred and fifty centals of corn from eighteen acres of land last season, without irrigation and has one hundred and sixty-five hogs on hand.

D. E. Gridley, a chip of the old block by the way, raised from twenty-four acres of corn, enough to pay all the other expenses of his farm and orchard.

M. Karcher, has purchased six acres adjoining D. Gridley and will build a house there shortly; also set out fruit trees and vineyard.

Mr. D. Gridley, one of the projectors of Artesia, reports that Norwalk, New River, and Artesia have three hundred school children, an unusually large number in proportion to the census. His crops were very satisfactory and he is well pleased with the outlook, believing that corn, alfalfa, deciduous fruits and hogs will prove highly remunerative to Artesia.

H. T. Bingham has an elegant residence and a large, well kept farm and orchard opposite Mr. D. Gridley's place.

J. W. and Mr G. Miller, raised one hundred and fifty bushels of potatoes per acre from three acres. They will realize from $1,200 to $1,400 from hogs this season. They have some of the largest peach and apricot trees in the county for their age, three years old from buds measuring from fifteen to sixteen inches in diameter.

John Goeddell, a shrewd, enterprising German, lives all alone upon the banks of the classic Coyote creek. He makes a good living though, for all that, and has evidently laid by something for a rainy day. He has among other things worthy of note, five splendid specimens of almond trees set out seven years ago, all yielding heavily already.

The Cornwall settlement in the southern part of Artesia, comprises some very enterprising and hospitable people. I meant to stay but two or three hours but found too much work to do and was very cordially urged to stay over night by Mr. Frank Pearce, who with his industrious and genial wife have made a "gem" of a place in reality of their home and surroundings. Frank Pearce is a good, careful farmer, an excellent carpenter and machinist and was, years ago, a first class sailor. He is building new buildings constantly and purchasing more land all of which indicates that he is doing well and has no fears with reference to the future of Artesia. J. H. Pearce his brother, has an elegant place also, and is evidently doing well. He raises seven crops of alfalfa every season; one of his cows produces eight pounds of butter per week, and his corn averages well. His apples and raisins (samples of which have been placed on exhibiton in the MIRROR office,) will compare favorably with those of any part of the county. I was requested by several parties in Artesia to state that the road recently declared a public highway from Artesia to Anaheim and Westminister has no bridge across Coyotte creek, and the two fords are through private property, the approaches to which are very steep, and after heavy rains, almost impassable and very dangerous.

Mr. Thomas P. Nivian and two Pengelly brothers have each nice comfortable homes. Parties from Santa Clara county, have recently purchased ninety-five acres adjoining the Pearce brothers and will improve the land the coming summer.

WESTMINSTER.

This much abused district has never been thoroughly understood, even by many of its own settlers. For many years water was used indiscriminately, until the alkali properties of the soil even at a depth of six or seven feet were brought to the surface in soil which had previously never given any indication of possessing alkali. A super abundance of water, added to the old exploded theory, that water and plenty of it constituted the summum-bonum of successful farming in Southern California, caused the terrible blunder, and Westminster suffers to-day in consequence. To come to the present, not one fourth the amount of water is used now, and that is used judiciously, the people having profited by their past blunders, and, moreover, they have realized to the best advantage. One of the prominent citizens of Westminster remarked to me however "if I must raise hogs to make a living I will leave." The majority of Westminister settlers do raise hogs though, in addition, and as an auxiliary industry to raising corn and alfalfa and in doing so demonstrate their level headedness, for therein lies the secret of Westminster's renewed prosperity. Dairy produce, however, could be added to the above, also various kinds of deciduous fruits, apples, pears, peaches and apricots especially, also English walnuts. A cheese factory is to be started here shortly and will doubtless prove as good an investment to the people of Westminster as Mr. Harshman's has proven to the people of Compton.

WHO THEY ARE.

Something About the Thieves of Los Angeles.

What They are Doing and Some of Their Little Tricks—Old-time San Francisco Birds.

For some months past Los Angeles has been the home of a number of San Francisco short-card men, gamblers and panel thieves, and scoundrels of the lowest kind. There is an old saying in Western towns and cities that when a place is filled up with such characters money is plenty and business good. This must be so, for this city never looked more prosperous than at present, for sharpers were never more plentiful than at this time. Any one acquainted with the cut of these gentlemen can satisfy his curiosity by taking a stroll up Main street between the Cosmopolitan Hotel and Temple street any afternoon. He will see them posing in front of saloons,

STARING AT LADIES

In an impudent, insulting way, and looking out for some emigrant or country youth with the old man's money and not a spoonfull of the brains that should be inherited by the son of a father who had the hard sense that made the money but has a kind heart and lets his pet of a son fill his pockets for the benefit of the aforesaid thieves. There is hardly a day passes that some poor fellow is not robbed. The worst of the whole gang is probably the smooth, slick, oily-tongued rascal who knows everybody and never misses a chance to run a countryman down and play a smooth gambling trick on him, before

THE GULL KNOWS

What company he is in. The gull seldom says anything about it and if he does per adventure go to the police office and complain, ten chances to one he was drugged or so drunk that he has no remembrance of what transpired. There is another well-dressed class, generally old San Francisco birds, who prey on the softer sex. They do it by mashing. It will be remembered that a short time ago the TIMES gave a description of this vice. Now, the mash thief is generally a man who has been in good society at some time during his miserable existence, and understands woman thoroughly. He starts out on a tour of inspection as soon as he reaches a new place, makes eyes at every well dressed woman he meets, and the first encouraging look he gets from the

FRAIL CREATURE,

He is by her side talking so pleasantly that she imagines she is listening to a gentleman she has known for years. An engagement is made for the next evening. They meet, and, after a little stroll she is invited to oysters. Champagne is ordered and after a glass or two is drunk, she, like all persons under the influence of liquor, imagines she owns the whole town, and when the scoundrel proposes that she let him wear her rings, etc., she turns over every piece of jewelry about her person to her newly made friend. Then she gets up with a "head" and discovers that she has been robbed. Her parents keep the thing quiet and the mash thief goes unpunished. The

POLICE HAVE BEEN WATCHING

Several of these fellows lately, and it is to be hoped that they will be caught. The panel game thieves are in town. No longer than one or two nights ago a young man was steered into a room by a masher and robbed. This case is now being worked up by the detective police, and although the young man refuses to assist, the pair have been spotted and will be captured in a few days.

Another sweet place is a gambling saloon, with card room so near the sidewalk that the passers-by can hear the click of money almost any hour of the day or night. This place is on one of the principal streets. Chief King and his efficient Captain are on the watch, and the chances are that before another month passes a number of the scoundrels will be in the hands of the law. They are all known, and had better emigrate to Arizona or New Mexico, where such pets are needed for cowboy meat.

A Lively Runaway.

About four o'clock yesterday afternoon F. E. Brown's horse became frightened at a piece of pipe which projected over the side of the wagon and started for home from the vicinity of the Agricultural Park on a lively canter. One of the lines breaking, Mr. Brown lost all control of the horse, which collided with a lamp post immediately after, throwing Mr. Brown, his workman and a load of galvanized pipe into a confused jumble along the ground, and upsetting the wagon. Then the horse's fun commenced in dead earnest. Dashing along at breackneck speed he did not stop until reaching the shop on Spring street. Fortunately Mr. Brown escaped with a few slight bruises, the workman was unhurt, the horse apparently none the worse for his exciting trip, and the only damage to the harness and wagon being broken lines and shafts. In falling out the workman fell heavily on a piece of pipe, almost flattening it. N. B.—It is not likely that Mr. Brown will charge the damage done to the pipe on that young man's account.

Mr. J. F. Nadeau started a centrifugal pump two days ago, with a thirty foot suction pipe worked by a twenty horse power engine, which pumps up two irrigation heads constantly.

NITTINGER IN COURT.

The Los Angeles Employment Man Defends Himself.

Judge Adams and a Jury Learn the Ways of an Employment Office—Much Fun in Court—Defendant Convicted.

During the past few months a fellow named E. Nittinger has been doing business in this place, running a railroad ticket scalping and employment business. Nittinger has been in the habit of taking up tickets and selling them to any one who would stand in and pass for the original purchaser. He was tried on this kind of a charge, but he was so sharp in his proceedings that a conviction could not be had.

Nittinger is a tall, dark complexioned man, with mild, calculating eyes that would deceive any one who was not up in the ways of the cold and wicked world. Like Mark Twain's California wolf, "he is a long, slim, hungry looking animal, and looks like he would get away with a sick oyster in a sand storm.

THE LAST CASE

In which he has been mixed up is about like this: A boy named George Harris, about sixteen years old, went to Nittinger to get work. Nittinger collected a dollar and sent the little fellow to the country to look up a sheep man who never lived except in the speculative brain of this enterprising agent.

The case was called yesterday morning in Judge Adams' Court. The defendant had demanded a jury, and twelve good looking citizens were sworn in to try the case. The defendant not feeling like

UNBOSOMING HIMSELF

To an attorney, took charge of his own case and before the trial had been running an hour the room was packed and the fun began. Nittinger is very much like Guiteau in his way of trying to bulldoze the Court and jury.

The District Attorney appeared for the people and made a strong case against the defendant. It was proven without a doubt that the defendant was guilty of obtaining money under false pretenses. A number of witnesses were examined and all swore that Nittinger was not trustworthy and would take any little advantage in his power. A number of persons were brought into Court and told stories of how he had swindled them on his employment office racket.

THE AFTERNOON.

In the afternoon the defendant took up his side of the fight and kept the audience in roars of laughter during the progress of the trial.

He evidently understands the latest dodges of the law, and attempted to prove his good character by calling several persons who had been to him for a situation. One, a lady named Dora Linbury, was called in by the defendant and made it very lively for him before she quit. She said that she applied to him for a situation and he promised her one, but made love to her by talking sweet and ended up by giving her one of his pictures. She did not care for the picture and never looked at it. She knew that he was a married man and did not believe a word he said. During the examination there was much fun for the boys. The defendant tried to break the witness down, but she was too smart and headed him at every move.

DEFENDANT ON THE STAND.

The defendant then took the stand and swore that he had opened an office in the Postoffice; that he had taken up a rule which he believed to be perfectly legitimate. He made a rule to collect one dollar whenever a person applied to him. When he opened there was no one in the same business, but after he had been in business several others opened. He did not come here to make money, but two of his children were sick and he came here for their health. One of the boys died and he went into business. He came from the East. He has been in business in San Francisco. In that city he did business on a different scale; he did not charge for a situation until he had procured the place. He explained to the jury the *modus operandi* of his business so that any one of them can now start out and run an employment office.

CROSS EXAMINED.

On cross examination he contradicted himself, although he is a smart fellow, but like all sharp business tricksters he talked too much and gave himself away.

After argument by the Deputy District Attorney and the defendant the case went to the jury. They were out only a few minutes, when they brought in a verdict of guilty as charged. He will be sentenced to-day.

TRAPPED.

How two Thieves Roll a Drunk and Get Caught.

Tom O'Connor and Tom Kelly, two sneak-thieves, have been around town for some time. The police have been watching them and got a chance at them yesterday. They (the thieves), got sight of a drunk on Alameda street and went for him. They shadowed him until he was in a dark place and then went for his sack. He had a few bits in his pocket but nothing else. But officer McMahon had his left eye on the performance, and conducted the gentlemen to the lock-up, where they will await their trial before Judge Adams.

Mr. W. F. Grosser's big telescope is on the streets these moonlight nights. Star gazers are becoming common.

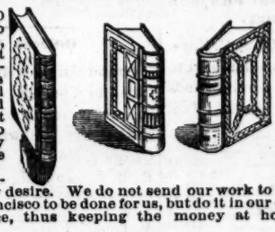
MIRROR BOOK BINDERY,

Los Angeles, Cal.



CONNECTED with our Job Printing Office, we have a First class Book Bindery, which is Complete in all its details, and work from it will be equal to that done in any Bindery on the Coast.

One great advantage gained by Merchants and Business men in having their Ledgers, Day Books, etc. made to order, is that they can have them ruled and manufactured in any manner and upon such paper as they may desire. We do not send our work to San Francisco to be done for us, but do it in our own Office, thus keeping the money at home.
